

Petition to support the Creation of a Quebec Agency to Fight against Cancer

To the National Assembly of Quebec

Whereas, it is essential to have a strong central program to fight against cancer with a maximum of efficiency;

Whereas, the World Health Organization and the Canadian Partnership Against Cancer advocate an organization that leverages and includes every resources to fight against cancer, and that the large western countries and most of the Canadian provinces already have such an organization dedicated to fight against cancer;

Whereas, the fight against cancer concerns first and foremost people affected by cancer and their family;

Whereas, the extremely important impacts of cancer on Quebec society as a whole;

The undersigned request from the National Assembly the creation of a **Quebec Agency to fight against cancer** that would be responsible to coordonate the efforts and the management of all services dedicated to cancer, that this agency would include people affected by cancer in the decision-making process, that this agency be placed under the direct authority of the Health and Social Services Minister and that it would be accountable to the population for its actions.
